**INSEAM: JUMPSUIT** 30"/76cm; **ROMPER:** 4 $\frac{1}{2}$ "/12cm -- ALL SIZES

**MINUS EASE:** This pattern has been drafted with negative ease, which means the final garment will measure smaller than your actual body measurements.

**BUST:** This pattern is drafted for a B to Small C cup. Measure around your high bust (*above the bust*), then your full bust (*right around and across the bust apex*). If the difference is more than 2"/5cm you will need to do a **Full Bust Adjustment**. If your measurements fall below 1"/2.5cm you may need to do a **Small Bust Adjustment**. [SEE PG.6 for fit](#)

These are some of my favorite resources for FBA & SBA techniques. [Nancy Zieman \(shift method\)](#), [Curvy Sewing Collection](#), [MellySews](#).

**HEIGHT:** If you fall  $\frac{1}{2}$ "/1.25cm outside of the drafted height measurements, add length using the adjustment lines on the pattern. *For shorter women an extra 2" can be taken out at the hem for the pants and maxi.* [SEE PG.6 for fit.](#)
